SENT TO THE PENITENTIARY.

T. M. Angle, who was convicted four years ago in the federal court at Greensboro, N. C., for defrauding the government out of $100,000 in taxes, was sent to the penitentiary at Atlanta last night, to begin the sentence of one year and a day. He is also required to pay a fine of $1,000.

Angle was convicted in 1894, together with B. F. Sprinkle and William Young, for violations of the internal revenue laws in connection with their rectifying plants of Reidsville, Milton, and Oak Grove. Angle was fined $1,000 and sentenced to the penitentiary for one year and a day. Sprinkle was given two years and fined $5,000. Young was fined $1,000 and given six months in jail.

The evidence showed that they bought stamps from revenue collectors in Indiana, Illinois and Kentucky for spirits 10 proof. On their rectifier's book and gauger's book they would enter stamps for spirits 190 proof and make demands on the collector's office in the Greensboro district for stamps according to the erroneous entries. The gauger was bribed to make the false entries, and A. J. Davis, the gauger in charge, was tried, convicted, and sentenced to eighteen months in the penitentiary and fined $1,000.

The Angle case has been argued four time before the circuit court of appeals and the United States Supreme Court, and was last month remanded to the original court for the execution of the sentence.

Last April, Angle was convicted at Danville, Va., for violations of the revenue laws in connection with his Dry Forks distillery, and sentenced for four years and fined $16,000. He served notice of appeal.

PHYSICIAN POISONED.

Cyanide of potassium, which had been placed in ale sent him for the purpose and which he sipped shortly before he was stricken, caused the death of Dr. William H. Wilson, of Philadelphia, last Friday, it was established yesterday by the coroner's office and the police. The bottle had been sent by express to the physician's house, three days before he opened it, by a man and a woman, the police assert, who, actuated by motives of revenge and hatred, deliberately plotted to destroy the doctor, his wife and their pretty five-year-old daughter, Vera.

Dr. Wilson had been previously sent a fraudulent circular, purporting to be signed by a well-known Philadelphia brewing firm, in which it was stated that a bottle of ale, valuable for medicinal properties, had been forwarded to him, as well as to other members of his profession, in the hope that they might prescribe it to their patients.

The police and coroner's office have ascertained that the brewing company whose name was used by the plotters does not brew ale, and does not use the form of circular received by the doctor. The name of the brewing firm was printed on the sheet and a typewriter used to fill in the letter.

The police say that they have located the boy who delivered the bottle at Dr. Wilson's house and the express office which it was sent from. They have also a good description of the man and woman who left the bottle at the express office.

DIVORCED FIVE TIMES.

Because it is to the interest of the public that she should no longer have the right to remarry, Mrs. Hannah Begin, five times married and five times divorced champion grass widow of Minnesota, has reached the end of her matrimonial rope.

In an order filed Saturday Judge F. C. Brooks, of the Hennepin county district court, grants Mrs. Begin a divorce from her fifth husband, but the divorce is limited and the right to remarry is denied her.

In his findings Judge Brooks holds that a decree of limited divorce will grant Mrs. Begin every right which she would acquire from an absolute separation, "except only the right to marry, the further exercise of which," says Judge Brooks, "would not be likely to prove beneficial either to her or the public."

Mrs. Begin is 42 years old and she did not begin her matrimonial career until she was 26 years old. In sixteen years she has been led to the altar five times and in fourteen years she has been divorced five times.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by W. F. Creighton & Co. and Richard Gibson.

The Philadelphia Record.

(The pioneer one-cent newspaper of America)

The democratic convention will meet soon at Denver to nominate the candidate for president. With the republican candidate already chosen, the campaign will shortly begin in earnest. Naturally, until the curtain finally goes down in November, things will be humming politically. It behooves the unbiased newspaper reader, the spectator of this stirring political drama, regardless of his political faith, to have a complete view of the stage; a thing that "The Philadelphia Record" enables every reader to have. The Record is a democratic newspaper and it speaks well for its independence and reliability that in a republican stronghold it enjoys the confidence of a large republican clientele in addition to its thousands of democratic subscribers. This year the completeness and reliability of the campaign will be fully up to the mark.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

TUESDAY EVENING, JUNE 30, 1908.

AN organized effort is said to have been discovered to defeat Mr. Cannon for speaker of the Sixty-first congress if the republicans carry the House. He has been tagged as an undesirable reactionary and must be eliminated, so the report goes. Iowa is expected to lead the revolt against the Illinois congressman. In the first place, Iowa has wanted the speakership honors for years as a tribute to her old veteran, Colonel Hepburn. In the second place, the state is not in sympathy with some of Mr. Cannon's policies. The recent action of republicans in Guthrie county, Iowa, adopting resolutions calling upon Representative Walter I. Smith to vote against Joseph G. Cannon for speaker, is said to be the first step in the campaign. Other Iowa organizations will follow suit, and it is predicted that many of the congressmen from that state will have the organizations, upon which they depend for election, demanding the defeat of Cannon and the selection of Hepburn to succeed him. Should Iowa lead off in this matter, most of the northwestern states it is said will follow her. Wisconsin is said to be up in arms against the drastic rules of the speaker that have squeezed the LaFollette disciples so hard that they were able to do nothing more effective than to make a futile protest. Not one solitary crumb of reform were they able to bring forth to the hungry reformers in the Badger state, and they say it was all because Mr. Cannon would not allow them to do anything to save the nation. Some of them spoke their minds on the floor of the House, while others contented themselves with breaking over party lines when the Speaker cracked the whip to carry out some of his plans. Minnesota, Michigan, Nebraska, California and Kansas are counted on to vote for a change in affairs in the House, while scattering representatives, disgruntled by the way things were run in the House during the last three congresses are classed with those who will vote against the Illinois member.

A BULLETIN sent out from Washington states that no longer is smallpox to be dreaded as a fatal disease, but is to be regarded as one in which 499 out of every 500 victims will recover. Such is the information gathered by the Marine Hospital and Public Health Service. During the past six months, 23,544 cases of this disease were reported to the service. Out of this large number only 55 died. Minnesota is credited with being the banner smallpox state, having 5,203 cases reported. In all that number there were only 6 deaths. Texas has something of a record along the same line, 3,089 cases being reported from there, and only one death. The third state is Kansas, with 2,332 cases and 3 deaths. New York had 631 cases and no deaths, while Pennsylvania reports only 11 cases and none fatal. Illinois came in with 1,739 cases, none fatal; and Ohio with 533 cases and 3 deaths. This must be the kind of "smallpox" which recently appeared in Alexandria.

"CANNED" SERMONS will be preached in many Chicago churches this summer when the pastors go away on their annual vacations. "Canned" sermons are the kind that are reproduced on a phonograph machine. It is not to be supposed that this device will remain peculiar to Chicago, but in time it will doubtless spread over the civilized world, when it will no longer be necessary to close churches in the absence of preachers. This system is capable of great possibilities. The phonograph machines can be kept in residences where discourses can be ground out ad libitum, and in disagreeable weather the piously-inclined can be stay-at-home Christians with no loss to their spiritual interests.

PHYSICIANS all over the country are warning people of the dangers of unsound fruit and vegetables which are too often offered for sale in the various stores and markets. In many towns and cities there are food inspectors and but little of such stuff is openly exposed for sale, but in other communities there are no such officers and in these the most danger lies. Unsound fruit and vegetables, meats and fish are more than likely to bring about illness at any time but more especially during hot weather, and too much caution cannot be taken in the selection of such articles of diet.

EVERY now and then it is published that Mr. So and So, "a prominent democrat," will not vote for Bryan should he be nominated. This is cheap advertising, for with a majority of these "prominent democrats" it would cost them at least sixty-nine cents to get their names published in any other connection.

Dr. William Osler, regius professor of medicine at Oxford University and formerly of Baltimore, has been selected as an independent candidate for the Lord Rectorship of Edinburgh University.

He spent most of the morning explaining the details of the Panama canal and the situation in Cuba. Other matters relating to the departments will be left to the bureau chiefs. Secretary Taft will be a plain citizen once more after midnight tonight, for the first time in many years. At that time he will be plain Mr. Taft and Governor Wright will be secretary of war. Gov. Wright will be formally installed tomorrow morning at which time the secretary will turn over the office and will present at a special reception the men of the department with whom Gov. Rear Admiral Charles S. Sperry, commander in chief of the Atlantic fleet, has notified the Navy Department that all is in readiness for the beginning of the cruise to Manila on July 7, and no further correspondence between the fleet and the Navy Department will be necessary. The fleet which is now mobilizing in San Francisco bay will be in regular formation by Friday night, awaiting the final moment for sailing on Tuesday morning next.

Authoritative announcement was made at Taft headquarters today that the sub-committee of the national republican committee will meet with Secretary Taft, at Hot Springs, Va., on July 8 for the purpose of selecting a campaign manager.

It is reported here that Col. Wm. L. Marshall, of the engineer corps, will be appointed chief of engineers of the army, to succeed Maj. Gen. Alexander MacKenzie, retired, Col. T. W. Symons and Col. S. S. Leech have both been mentioned in connection with the place.

Naval circles are anxious today over the blow of the "dead-wood ax," which will fall upon the heads of fourteen officers at the close of the fiscal year at 4:30 o'clock this afternoon. Forty vacancies must be created in the grade of lieutenant by the beginning of the new year tomorrow, fourteen of which will be by action of the special retiring board which will meet at 4:30 this afternoon to receive the applications for voluntary retirement which after endorsement by the board, will be forwarded tomorrow to Oyster Bay for executive approval. The number of these retirements and deaths that have occurred during the year will determine how many of the maximum number of fourteen will be compulsorily retired by the board. The ratio of the compulsory retirement was announced today as follows: Five captains, four commanders, four lieut.-commanders and one lieutenant.

Secretary Cortelyou and Attorney General Bonaparte are conferring today regarding the course of the Treasury Department in enforcing the new whisky regulations, in event a stringent restraining order is handed down during the day in Cincinnati, to prevent the collector of customs in that city from enforcing the regulations. If the decision of the court is uncompromisingly against the government, the department may suspend the enforcement throughout the entire country of the regulations which were to have gone into effect tomorrow.

Lynching Anticipated.

Louisville, Illinois, June 30.—Fearing an attempt may be made to lynch Julius Turner, a wealthy Clay City farmer, who killed his wife and inflicted probably fatal injuries on his son, claiming the latter was an admirer of his wife, armed deputies are today guarding the jail where Turner is a prisoner. Slight hope is entertained for Glenn Turner, the 15-year-old son. Turner will recover from the wound he inflicted on himself. Turner, 20 years his wife's senior, had been separated from her. He followed her to church last night and kept watch on her movements. Glenn came by appointment to meet his mother, and as they stood talking on the church steps Turner opened fire. His wife died almost instantly. When he discovered he had shot his son he turned his revolver on himself.

Oppose Fallieres' Visit.

Paris, June 30.—President Fallieres is experiencing the same opposition from the socialistic members of the Chamber of Deputies with respect to his proposed visit to Emperor Nicholas that King Edward did from the laborites in the House of Commons. From the first the socialists have raised the most violent objection to Fallieres' plan, their opposition culminating in a further effort to defeat the appropriation to defray the expenses of the trip. After a stormy session, the appropriation was passed by a vote of 499 to 52. The socialists' cry is that any manifestation of friendship for the czar by the French president is a tacit approval of the emperor's reputed campaign of repression against the liberals and douma members of his land. They assert that until the czar changes his whole method of administration, he should be ostracized by liberty-loving people.

Edward Ward Vanderbilt, the aged wealthy husband of May Scannel Pepper, the famous medium of "Little Bright Eyes" fame, who was adjudged insane by a sheriff's jury, had that decision reversed in the appellate division of the Brooklyn Supreme Court today. The order of the court is that the question of Vanderbilt's sanity be determined by another commission.

That Louisiana shall be a high-license State for the next two years at least was finally decided by the Assembly last night, when the Senate passed the Shattuck-Gay liquor bill by a vote of 29 to 4. This measure has passed the House and is known to have the Governor's approval. It fixes the minimum parish license at $500 and minimum State fee at $200, with maximum licenses running up to several thousand dollars.

The reported protest of the New York Engineers' Union against the appointment of enlisted men to do work which they claim should be done by union men is not likely to figure among the last affairs to be disposed of by Secretary Taft. The protest was not received this morning and, in any event an investigation of the charges will have to be made before the department will reply to the protest. This means several days at least so that the matter will come up before General Wright for final disposition.

MAY SETTLE BIG DEBT CASE.

Preliminary steps toward an adjudication of the Virginia-West Virginia debt suit, now pending in the Supreme Court of the United States, were taken at the conference in Washington yesterday between Charles E. Littlefield, of Maine, and counsel for the two States. It was decided that the first formal hearing shall be held in Richmond, November 9, before Mr. Littlefield, the master in the proceedings, and thus permit of conferences between counsel to reach an agreement upon any minor points involved. The debt dispute arose over the creation of the State of West Virginia out of the original domain of Virginia, and the proper apportionment of the bonded indebtedness of the latter State.

Those at the conference, in addition to Mr. Littlefield, were Attorney General William A. Anderson, of Virginia, and Holmes Conrad and Randolph Harrison, representing that State; Attorney General William G. Conley, of West Virginia; Prof. Hogg, former Secretary of the Treasury John G. Carlisle, and Attorney Mulholland, representing West Virginia, and Attorney Robinson, of New York, representing the bondholders.

The Fairfax Jewels.

Boston, Mass., June 30.—The famous Fairfax jewels, made illustrious in Winston Churchhill's novels, "The Crisis" and "Richard Carvel," shone in all their old time splendor at the wedding of Miss Gertrude Stone to Mr. William F. MacKermon, in Melrose, last night. The bride wore many of the jewels, and the others were worn by Mrs. W. F. Taliaferro, the sister of the groom, who came from New York. The jewels are priceless possessions of the Taliaferro family, descending to them from the Fairfax family of Virginia. This is the first time the jewels have been worn since Mrs. Taliaferro's marriage, fifteen years ago. It is a tradition in the family that all of them are never to appear at the same time except at the wedding of one of the family.

Killed Man Who Insulted Her.

New York, June 30.—Insulted by Donator Ross, a boarder in her home, pretty Mrs. Catrina Mancuso today replied to his proposals with four bullets. Ross was shot under the heart, in the abdomen, in the jaw and in the leg. Mrs. Mancuso as she fled after the shooting told a friend of the family of her action and its cause. She was captured in the house of a friend nearby and taken to the West Thirtieth street station. Ross is dead.

"GOOD GROWING WEATHER."

When the New Scalp Antiseptic is Used.

A good head of hair is as much a "crown of glory," for man as it is for woman, notwithstanding all the poetry on the subject applied to the female sex exclusively. In the season when flies bite, the bald-headed man can sympathize with the Egyptians who were so sorely plagued on account of the children of Israel. Why not try Newbro's Herpicide? Others have been benefited and are loud in its praise. It cleanses the scalp, kills the germ at the root of the hair and by keeping the scalp sweet, pure and wholesome, the hair is bound to grow as nature intended, regardless of the temperature. Try it and be convinced.

Sold by Ernest L. Allen & Co., agents. Two sizes 50c and $1.00. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. 59

Price is nearly 70 years old. Several months ago he got on a spree and shot and killed the man with whom he had been living.

Hurricane Branch, "the bloodhound detective," of Suffolk, yesterday announced his retirement from that branch of criminal chasing. The immediate cause was the loss of his prize dog Tiger, jr., which was shot by a closely pursued burglar whom he was chasing through the fern-grown fastness of the Dismal Swamp.

Returning home in Richmond from the Virginia Hospital, where she had been for treatment after an operation, Miss Fannie Morris yesterday discovered her father, E. L. Morris, beating her mother. The buildings are being sold at wreckage prices, and most of them are being acquired by the Royalty Realty Corporation which is speculating on them.

While the Chesapeake and Ohio passenger train from the west, due in Richmond at 8:35 o'clock yesterday morning, was approaching Gladstone the crew of the Pullman car Sueno discovered the car was on fire. Only the trainmen were aboard. The bell cord was burned on the forward platform, and when the men fought their way through the smoke in the car they found the door of the car ahead locked, and communication with the engineer and escape was cut off. A lantern swung by the conductor from the rear platform caused the engineer to stop. The engineer then ran the train at full speed to Gladstone, where the flames were put out.

ANTI-INJUNCTION PLANK.

Advices from Denver are to the effect that the fight over the anti-injunction plank in the democratic platform is not the only struggle in which the committee on resolutions, and possibly the convention itself, may be involved. It developed yesterday that the prohibition question is to be brought to the front and that a desperate effort will be made to have a plank declaring in its favor placed in that platform.

The prohibition movement will be headed by Gen. James B. Weaver, of Iowa. General Weaver and his followers claim to have strong backing from a number of delegations from southern states which have recently passed prohibition laws.

The anti-injunction plank continues to provoke a large amount of discussion. While opinions differ as to the exact nature of the plank which should be adopted, all are of one mind in saying that it shall be a definite and specific statement. Such members of the national committee as have discussed the matter are a unit in saying that the wording of the anti-injunction plank shall leave no possible doubt in the mind of any reader as to where the party stands on this question.

It is now generally believed, however, that the anti-injunction resolution will not provide for trials by jury in cases of contempt of court or favor in any way measures which might be construed as interfering with the prerogatives of the federal courts.

Suspected of Poisoning Physician.

Philadelphia, June 30.—Arrest of a young man and woman, rich and prominent in society circles here, is hourly looked for today as a sequel to the poisoning by cyanide of potassium of Dr. Wm. H. Wilson, who died after drinking part of a bottle of ale sent to him by express. The two young persons whom the police suspect are brother and sister. Dr. Wilson, it is believed, was the operator on another sister who died, and her relatives, crazed by grief yet dreading the scandal that would follow prosecution of the physician, are believed to have determined on vengeance by the secret method which killed the man. The source of Dr. Wilson's big income, though a mystery to his neighbors, was known to the police. No patients came to his home and he had no office, but to detectives he was well known as a man who would "take a chance" to prevent a society scandal if the pay was big enough. One such case, it is almost certain, resulted in the vendetta that brought him death.

Today's Telegraphic News.

Denial from Gov. Montague.

[Special dispatch to the Alexandria Gazette.]

Richmond, June 30.—Former Governor Montague arrived in Richmond this morning and gave out the following statement:

"I will not take the stump for the republican nominee or party in Virginia or any where else. I intend to vote for the democratic nominees. No federal judgeship or any other federal office has been offered or mentioned to me, and I have not applied for or discussed with any body any such position."

Revolution in Mexico.

Mexico City, June 30.—The positive information from Washington that United States troops are to patrol the Rio Grande border and lack of definite news regarding fighting during the last 12 hours have done much to quiet the apprehension among officials and citizens alike over the threatened uprising. However, there is anxiety over the showing the revolutionists may make tomorrow, the day set for the revolt.

The sending of United States troops to the border is regarded here as the answer to reports that American interests are jeopardized. The great fear is that the miners will join the uprising. Today representations are being made that the American troops are being massed on the river for a rush into Mexico at the slightest sign of a miner's revolt.

So far as known here only one slight brush occurred yesterday. Federal troops ran down a party of insurrectos sixty miles from Las Vacas. Reports estimate the dead and wounded between 20 and 60. At least 3,000 Mexican soldiers are now in the threatened territory with orders to take no prisoners, and to exterminate the rebels, except ring leaders who are to be held for trial. It is believed the district will be cleared of the insurrectos within a few day.

The only serious engagement reported between the soldiers and the revolutionists took place sixty miles northwest of Las Vacas between the band that attacked Las Vacas and a detachment of troops that left here Sunday.

After a half hours' fight, the revolutionists were completely scattered. A score of them are reported to have been slain, while a half dozen troopers fell in the engagement.

Wherever groups of people are encountered who are known to be revolutionists, no quarter is shown them, as the Mexican government has offered a reward of $100 for every revolutionist dead or alive.

Del Rio, Texas, June 30.—Fearing that the Mexican revolutionists arrested on the Texas side of the Rio Grande would not be extradited, a company of Mexican officers, disguised as peons, crossed into Texas and began the pursuit of a number of revolutionists. They were themselves suspected of being revolutionists and were captured by United States customs officers. On being brought to Del Rio the identity of the arrested men was established. They were released, but warned not to repeat their performance. Their idea was to hustle the revolutionists that fell into their hands across the river before the American authorities could interfere.

The Denver Convention.

Denver, Colo., June 30.—With the arrival here tomorrow of former Judge Alton B Parker, of New York, the conservatives, who are saying they will block Bryan's will in the democratic committee on resolutions, will inaugurate their campaign.

Bryanites here declare that the hue and cry for a conservative platform comes from interests that have always been "anti-Bryan," and claim that the leaders cannot hold their delegates against an appeal from Bryan for support, and the prospect of a real old-fashioned democratic scrap has seemingly pleased all hands.

Judge Parker will have the support of the members of the committee on resolutions from New York, New Jersey, Pennsylvania, Illinois and Colorado in his initial fight, and it is claimed by the anti-Bryanites that other States will join him just so soon as they discover how radical the Bryan policies are.

This latter prediction is being laughed at by the Bryan following.

In order to clinch victory the Bryan leaders have sent telegrams from leading States urging them to stop in Lincoln before coming to Denver and discuss the matter with Bryan himself.

Bryanites generally are making capital out of the visit to Lincoln yesterday of Judge Josiah Marvel, of Wilmington, Del., and J. R. Beamish, of Philadelphia, who are en route here to open headquarters in behalf of Judge George Gray of Delaware. They argue that it shows the Grey managers realize that Bryan is not alone leader of the party and will be nominated, but that he is in a position to dispose of many vexed problems. Consequently the Bryan people hope Gray's friends will be convinced after their talk that the Delaware jurist ought to be willing to accept second place on the ticket.

McClellan Declared Elected.

New York, June 30.—Declaring that the recount of ballots cast in the Hearst-McClellan mayoralty election in 1905 showed no vestige of fraud, Supreme Court Justice Lambert today ordered the jury to bring in a verdict declaring George B. McClellan properly elected. He declared the official count at that election practically as correct as the recount. This closes Hearst's fight for the mayoralty of New York.

The Suffragettes Again

London, June 30.—Ten thousand sightseers watched a demonstration by suffragettes around the House of Commons this afternoon, the preliminary to a still bigger affair scheduled for this evening. Premier Arquith refused to see the women, and they are exasperated. The women on their way back to Caxton Hall were pelted with stale vegetables and rotten eggs.

No Need of Suffering from Rheumatism.

It is a mistake to allow anyone to suffer from rheumatism, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. Do not be discouraged until you have given it a trial. For sale by W. F. Creighton and Co. and Richard Gibson.

Revelers Robbed.

Rome, June 30.—One of the boldest coups by brigands in Italian history was pulled off last night in the castle of Baron Remondi, in Brindisi. As a result Baron Remondi and a score of wealthy friends whom he had invited to a banquet were robbed of money and valuables to the amount of thousands of dollars. Shortly after the banquet began a man in hunting costume appeared and begged for food and lodging. The banqueters were in a merry mood and took the wayfarer in. While the supposed beggar was still a guest at the table eight mounted carabineers came to the castle. They said they were searching for the notorious brigand Soma. They pointed out the beggar as the man for whom they were hunting.

With a profusion of thanks the banqueters turned their uninvited guest over to the carabineers, who locked him up in the stable. The carabineers were then invited to return to the banquet hall and joined in the feast, as a reward for having saved the baron and his friends from an attack by Soma.

No sooner were the carabineers seated then they whipped out revolvers and covered their host and his guests. Every one was forced to give up everything of value he had. The task was ridiculously easy, as the banqueters were caught wholly off their guard. With a sack full of booty, the carabineers went to the stable, released Soma, who in reality was their chief, and rode rollicking away, firing a fusillade as a warning against pursuit. Brindisi and the whole of Italy gasped when the details of the robbery came to light this morning.

Bishop Potter's Condition Critical.

Cooperstown, N. Y., June 30.—With his wife, his son Alonzo and other members of his family at his bedside Bishop Henry Codman Potter is today fighting a battle with death here. In constant attendance on him are Dr. J. E. Janevin, of New York, and Dr. M. I. Bassett, of Cooperstown. Only the constant administration of oxygen sustains life, and it is feared that the end may come at any time. Bishop Potter is suffering from liver and stomach complaint, and his illness has been aggravated by the intense heat which is slowly but surely sapping his vitality.

The following bulletin was issued today by Bishop Potter's physicians:

"Bishop Potter passed a comfortable night. Condition this morning practically the same as yesterday. Very critical."

Bishop Potter comes of a family which has given many distinguished men to the church. He is 74 years old and is the son of Bishop Alonzo Potter, of Pennsylvania.

Conditions in Persia.

St. Petersburg, June 30.—Details of the continued fighting between the enemies of the shah and the reactionaries at Tabriz are lacking, but it is known that the former have recovered from their repulses of the first few days and are now more than holding their own in clashes with the soldiers.

A dispatch from Teheran today says that the shah is complete master of the situation there. Twelve members of the national council have been hanged on the shah's order.

There are still a hundred or more political prisoners in the Persian capital, and it is feared that at least half of them will be put to death.

All the banks are opened and conditions are rapidly resuming the normal. Several thousand people who fled the city last week are still in the country. The shah has promised all except the ringleader immunity and had invited them to return and resume their business.

New York Stock Market.

New York June 30.—After fractional gains early, a moderate supply of stock came on the market and prices reacted in some issues a point from the highest and at the end of the hour they were wavering at fractional net declines.

After the first hour the market became extremely sluggish.

For a Sprained Ankle.

As usually treated, a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may be effected in many cases in less than one week's time. This liniment is a most remarkable preparation. Try it for a sprain or bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by W. F. Creighton and Co. and Richard Gibson.

Deaths from Heat.

New York, June 30.—With a total of seven dead to the last 24 hours, and every indication that the list will be added to, and with all the hospitals overcrowded with prostrations, Greater New York is today suffering from the worst torrid wave of the summer, and no relief is in sight. Of the deaths three were caused by falling from fire escapes, where the victims were endeavoring to get fresh air. Three resulted from drowning, caused by being overheated and one was a prostration.

Monument to Cleveland.

Buffalo, N. Y., June 30.—A movement is under way here to erect a fitting monument to the memory of the late President Grover Cleveland. The board of aldermen has passed a resolution to this effect which calls for a monument commensurate with the place of dignity and importance which the dead president occupied in the official life of the nation and the hearts of his countrymen.

The maneuvres present the greatest peaceful demonstration in the world's history, as 264 fighting machines are taking part. As a result of the maneuvres England hopes to determine the best method of defending her shores and her possessions elsewhere.

Another Incendiary Attempt.

UNLICENSED DOGS.

Of the thousand and more dogs in the city it can be safely asserted that not one half are licensed, as only 435 were paid on up to noon yesterday. After today every person who has an unlicensed dog, or harbors one, is liable to a fine of not less than three or more than five dollars, and in addition will be made to take out the required license. If such persons are reported by the policemen, such persons are fined, as the law requires, the city would soon be rid of the many worthless dogs or the persons who harbor them punished.

A few weeks ago the mayor signified his intention of sending out the dog cart. This would be a proper movement toward abating the dog nuisance. He should also see that the police report every person in their respective beats who owns or is harboring an unlicensed dog.

Three hundred and sixty dogs that were neither tagged nor muzzled were impounded in Washington last week. Ninety licensed dogs without muzzles also were found running at large by the dog catchers, but most of them were redeemed by owners. Alexandria should follow the example set by the Washington authorities.

OBEYING THE BYRD LAW.

Four men who had come over the road in an automobile from Washington this morning made a stop at the first saloon they espied in the northwestern portion of the city. They were not like harts, panting for the water brooks, but were animated by visions of cool and foaming glasses of lager beer. The experienced optics of the boniface, however, sized them up immediately—they were already in an advanced stage of intoxication. The members of the party delivered their order, but the landlord informed them that they already had enough aboard for a hot day. "Well," replied one of the men, "we've come down from Washington to get something to drink." "You seem to have obtained it," quietly observed the saloonkeeper. The would-be customers gazed at each other a few seconds and asked in which quarter of the city a certain saloon is located. Upon receiving the desired information the quartette reentered the automobile and were soon spinning toward their objective point

TO BE SENT TO HER HOME.

Lucy Morris and Ethel Layton, two young women, were taken in custody late yesterday evening by Officers Rawlett and Beach as suspicious characters. They arrived here on the ferry steamer from Washington and went to a house conducted by Rosa Moore on north Lee street. The two women were brought before Justice Caton this morning when the Morris woman said she was 21 years old, that she was born in Richmond county, Va., and had at one time lived in public houses in Baltimore. Ethel Layton testified that she was born in Fredericksburg, where her father lives; she gave her age as 20, and said that she had led a wayward life for the past five or six months but had not up to this time been an inmate of a disorderly house. The elder woman was dismissed, but the younger was held. She will be sent to her home in Fredericksburg.

THE AUGUSTA WINS.

That Alexandria can claim the honor of having the fastest pleasure yacht that runs on the Potomac river was proven last Sunday evening when the Augusta, commanded by Admiral Calmes, of the Alexandria Yacht Club, beat the yacht Norman, of Washington, in a spirited race. The contest was forced upon the Augusta's crew unexpectedly as she was proceeding up the river towing a barge, but recognizing the fact that Alexandria's reputation must be sustained Admiral Calmes ordered the boat set adrift and accepted the challenge with a vim which resulted in the Norman going down to defeat. The Augusta carried 9 persons while the Norman only had 4 on board.

ALEXANDRIA LIGHT INFANTRY.

The Alexandria Light Infantry, formerly Company G, Seventieth Virginia Regiment, which was disbanded by order of the State military authorities several weeks ago, met at the Armory Hall last night and decided to adopt a gray uniform. It was also determined to change the constitution and by-laws in order that the organization may be required to turn out on both federal and confederate memorial days. It was also decided to go into camp at Colonial Beach for ten days early in August There will be another meeting next Friday night.

THE LATE CAPT. PAYNE.

Capt. Wm. W. Payne who died at Harrisonburg, at an early hour yesterday morning, as stated in the Gazette of that day, married Miss Laura Moore, of this city, sister of Mr. A. Moore, engineer on the Southern Railway and sister-in-law of Mr. Amos Howard of this city. GEORGE WASHINGTON PARK ASSURED.

The Washington Monument Association have practically closed option for the purchase of the Shooters Hill property with Mr. Julian T. Burke and Col. Herbert, and during the past week Secretary A. J. Wedderburn has collected in notes and cash over $15,000. The secretary requests the lot purchasers who have not settled to close their accounts at once, otherwise, they may not be included in the first list, as over 250 lots have been spoken for and there are only 239 altogether. The first 100 purchasers have the option of taking an adjoining lot to the one first secured.

The consummation of this purchase secures to Alexandria a park of 14 5 acres including the Golf Club house, the grove surrounding it and the land between the club house and the land of the Washington-Southern Railway which the company has already planted in trees for park purposes, thus securing a park of not less than 25 acres. The monument will be erected on the hill in front of the club house. The committee in charge of the negotiations with the trustees of the Dulany estate on behalf of the Washington Monument Association is Messrs. C. C. Leadbeater, J. M. Hill, Gardner L. Boothe and F. L. Staymaker.

We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—ENNIS BROS. Do You Want a Diamond.

Why not get one? It not only shows exceedingly good taste to wear a Diamond, but it's a good investment at the same time.

A good Diamond never loses its lustre nor its value. On the other hand stones gain in brilliancy and have been known to double in value.

A savings bank pays you 3 per cent. Diamonds average from 10 to 15 per cent. on the investment.

Lets talk it over.

Keep the Kitchen Cool

Why swelter over a glowing range in a stuffy kitchen, when a new Perfection Wick Blue Flame Oil Cook-Stove will do the family cooking without raising the temperature enough to be noticeable?

By putting a "New Perfection" in and allowing the range fire to go out, you may make this summer's kitchen work not only bearable, but actually a pleasure. The

NEW PERFECTION

Wick Blue Flame Oil Cook-Stove

produces an intense heat *under the kettle or in the oven*, but does not radiate heat in all directions as a coal range does—hence is used with comfort on the hottest summer day. Made in three sizes, and warranted. If not with your dealer, write our nearest agency.

The **Rayo Lamp** comes as near lamp perfection as it's possible to get. Gives a clear, bright light that reaches the farthest corner of a good sized living-room. Well made throughout of nickeled brass; perfectly safe and very ornamental. Warranted in every particular. If not with your dealer, write our nearest agency.

TUESDAY EVENING, JUNE 30, 1908

An English Turf Tragedy.

Half an hour before the race for the Two Thousand Guineas of 1883 Prince Batthyany, who bred St. Simon and who was one of the most popular racing men of any time, was talking with Lord Cadogan in the luncheon room of the Jockey club stand at Newmarket, when he suddenly reeled and fell.

He was carried to Weatherby's office, and doctors were summoned, but the prince was beyond all human aid, and just before the bell rang for the race for which his colt, Galliard, brother of St. Simon, was first favorite he breathed his last.

A few minutes later "the clear blue sky rang with cheers and shouts as the horses came thundering along, which rose into a roar as Galliard won by a head," while behind the drawn blinds of Weatherby's office Galliard's owner, who had been looking forward so eagerly to this moment, was lying dead. It was owing to the death of his owner that Galopin's great son could not run in the Derby of 1884, which he would almost certainly have won.—St. James' Gazette.

Curing Snake Bites.

Considerable difference of opinion exists with regard to a trustworthy remedy for snake bites. Dr. Lauder Brunton advocates the use of permanganate of potash applied immediately. Mr. Greengrass of North Arcot district, Madras, however, as the result of various experiments states that acetic acid, even in the diluted form of vinegar, is an important and effectual remedy, and it can be applied effectually as long as an hour or an hour and a half after the bite. Cases of recovery from snake bites have followed the application of vinegar after such intervals. An incision must be made over the bite, as much of the poison as possible squeezed out, and then vinegar is to be injected. If the bite is on a limb, a ligature must be placed above it. Mr. Greengrass records twenty-nine cases of recovery from cobra bites by such a use of vinegar. The one failure which occurred was due to the fact that no incision had been made over the bite. A similar treatment is recommended for the stings of scorpions.—London Standard.

Downing Street, London.

The greatest street in the world is one of the smallest. This is Downing street, a dark little alley in the west of London. Here is the real center of the British empire, for it is at 10 Downing street that the premier has his official residence. Ever since Robert Walpole was the prime minister, 200 years ago, the heads of the government have made their homes in this "alley." American tourists usually go out of their way to gaze upon the dingy, almost repellent exterior of this lodge of diplomacy and national ambition, because Sir George Downing, who laid out the street and built the house therein, was of American ancestry his mother belonging to the Winthrops of Massachusetts Bay Colony, and stands as the second graduate on the roster of Harvard college. After getting an American education he went to England and, seizing opportunity when it offered, became Oliver Cromwell's ambassador at The Hague.—Exchange.

Feeding the Stock.

The victim of the following story, told in Mrs. Henry W. Cole's "A Lady's Tour Around Monte Rosa," was possessed of a keen sense of humor. Otherwise his dignity might have been ruffled by the unconscious revelation which came to his ears. In the course of Mrs. Cole's travels she met the Rev. Robert Montgomery, the poet, who told her an incident of his early career in the pulpit. When he was first admitted to holy orders he was appointed curate in a rural Scotch district and lodged in the house of a small tenant farmer. Notwithstanding his office of clergyman the family did not appear to hold their boarder in high veneration, for one day he heard the woman servant call out to her mistress:

"Missis, shall I feed the pigs first or gie the mon his dinner?"

An Erratic Echo.

The late Sir John Leng had traveled in most quarters of the globe. On one occasion when visiting Spain he was asked at a certain spot by a traveling companion to test the powers of what was declared to be a wonderful echo. Sir John, slowly and deliberately, in rounded tones uttered the words, "Dun-dee Ad-ver-ti-ser," the name of the paper he owned. "Dundee Courier and Argus," the name of the opposition paper, came back as the echo! Sir John's friends had played him a trick.

Tea Drinking.

Tea drinking was regarded as one of the feminine vices of a hundred years ago. The Female Spectator of that period observes: "The tea table costs more to support than would maintain two children at nurse. It is the utter destruction of all economy, the bane of good housewifery and the source of idleness."—London Mail.

Vanishing France.

Old France is slowly disappearing, and its local customs, picturesque costumes and the language peculiar to its ancient provinces will very soon become nothing more than precious souvenirs preserved in faithful memories or related in works of tradition, which will charm our descendants.—Petit Parisien.

A Slight Difference.

What is the difference between a jeweler and a jailer? One sells watches and the other watches cells.

It takes two to make a quarrel, but some folks don't have much trouble finding the other one.—Puck.

PLAN A "ONE FOURTH"

"The surest Fourth in the history of Chicago" will, it is expected by the officials, be the characterization earned for itself by the coming holiday. The police and fire departments are to join hands in a determined attempt to reduce accidents, noise and fires to the lowest possible level. Stricter enforcement of the city ordinance governing the sale of fireworks and explosives is to be made this year than ever before. The firing of cannon, guns or pistols is prohibited, as well as the discharge of toy pistols and common firecrackers. Extra police are to be detailed for service in the neighborhood of hospitals, sanitariums and residences where there are sick persons.

KILLED HIS PLAYMATE.

A four-year-old boy, Edward O'Donnel, of New York, who is believed to have caused the death of a playmate, was in the coroner's court yesterday. Eddie and Albert Decker, who live in the same house, were playing with a toy express wagon on Saturday. In a quarrel as to which should ride next, Eddie hit Albert in the side with a toy pistol. Apparently the injury was trifling and Albert went home. Later he died at St. Elizabeth's Hospital of peritonitis. A detective went after Eddie and took him to the coroner, who went through the form of paroling him in the custody of his father. The boy munched a peach while the case was being examined.

Stomach Troubles.

Many remarkable cures of stomach troubles have been effected by Chamberlain's Stomach and Liver Tablets. One man who had spent over two thousand dollars for medicine and treatment was cured by a few boxes of these tablets. Price, 25 cents. Samples free at W. F. Creighton & Co. and Richard F. Gibson.
